## MOLOKAI AND LANAI WILL BE CUT OUT OF WIRELESS

**Improvements Being Made Which Will Completely Change the Workings of the Wireless Telegraph System.**

The islands of Lanai and Molokai are to be cut out of the wireless telegraph system upon its reorganization to include Kauai. The two stations on these islands were never of any commercial value to the company, excepting as an intermediate way-station in communicating with Hawaii.

Manager Cross has already begun on the rehabilitation of the system and expects to have everything in working shape shortly after the first of July.

There will be no necessity for relay messages under the reorganized system except in communication with Hawaii, the messages for which must pass through the Lahaina station. The greatest distance over which messages are now sent is eighty-three miles, between Lahaina and Mahukona, near Hilo; but it is planned now to make direct communication between Honolulu and Hilo, or to be more correct from Barber's Point to Kawaihae, a distance of 140 miles. This improvement will not be made for the present, however, and there will be only eighty-three miles stretches.

The station at Kaena Point, on this island, has now been removed to Barber's Point, and communication with Kauai is now possible. There is already a pole at Nawiliwili, but though messages could be received from that station, none could be sent from Kaena Point because the hill in back of the pole absorbed all of the energy. It was for this reason the change was made, and now there is no difficulty in sending messages to Nawiliwili, though the line is not open for regular business. The distance between these two stations is about eighty miles.

From the new Barber's Point pole messages will be sent to Maui to the new station at Olowalu, which is to take the place of the Lahaina station. This is a distance of eighty-three miles. Molokai and Lanai will both be cut out, and messages then sent from Maui direct to the new station at Kawaihae on Hawaii. The old Mahukona station will also probably be abandoned, though this has not been definitely decided upon. The earth in which the Mahukona pole is placed is said to interfere with the electric current. The distance from Lahaina to Kawaihae is about sixty-three miles, and from the latter point wireless messages will be transmitted to Hilo and other places on Hawaii by telephone. It is the intention of the company to

erect a telephone line around the edge of the big island, from Kawaihae to Hilo.

The stations on both Molokai and Lanai can be easily dispensed with under the new arrangement, and it will obviate the necessity for relays, which often seriously retarded wireless communication.

The Legislature has made provision for a telephone system out from the Leper Settlement to connect with the wireless telegraph, and if this goes through, there will probably be made some arrangement for continuing an operator on Molokai.

Under the law passed by the Legislature the Inter-Island Telegraph Company is to receive a subsidy of \$24,000 payable in twenty-four monthly installments provided that communication is satisfactorily established with Kauai, and certain other conditions are complied with. The company has three months from the passage of the bill to make the improvements, and the time limit will not be up until some time in August, though the contract will have been carried out prior to that time.

## FATAL EXPLOSION IN KAHULUI BAY

(By Wireless Telegraph.)

PAIA, Maui, June 16.—An explosion of giant powder in Kahului Bay at 8 o'clock this morning fatally injured Pilot Bob English and gave other occupants of the boat a very narrow escape. English died shortly after noon.

The boat in which the explosion occurred carried Bob English, Superintendent Miller, Kruger and Uai Napoleon. English received his injuries about the face and body. Kruger was injured about the legs. Miller and Napoleon, the other occupants of the boat, escaped unhurt.

The explosion attracted attention from the shore and assistance was promptly rendered. Bob English was taken to the hospital, where his wounds were dressed, but, though he rallied temporarily, his system was unable to withstand the shock.

### Sailing Vessels Leave.

Two vessels of the sailing fleet got away yesterday. The Hecla sailed for Puget Sound at 11:30 and the David Evans for Portland two hours later.

## SOLDIERS LEAVE ON KINAU

Co. D of Hilo got a good send off yesterday noon when the Kinau sailed. The soldier boys broke camp early yesterday morning and marched to town. At Thomas Square they were met by Captain Berger and the Government band and by Co. F under command of Captain Johnson. At the wharf the boys were liberally decorated with leis, and soda water and oranges also went their way.

Sam Parker and a large party were also passengers on the steamer.

Professor R. L. C. Perkins left for Hawaii to make an investigating tour along the Hamakua coast.

The Hilo race horses which took part in the June 11th meet also were sent back by the Kinau.

## HANALEI MAY RETURN SOON

The Inter-Island steamer Hanalei may return within a week from Midway Island. She was chartered originally by the Commercial Cable Co. to carry the operators and supplies to the Midway Cable station. Local officials expect to see her back very soon. She was to assist also in the work about the cable station when the big Colombia arrived, but the departure of the Iroquois for that port will do away with the necessity of having the Hanalei around, to a large extent.

## NEBRASKAN IS LATE IN COMING

The Nebraskan had not been sighted at two o'clock this morning. She brings five days' mail and was expected by the agent to arrive early yesterday afternoon. She carries 150 bags of mail and will probably get in the first thing this morning, which is the schedule time.

The American Maru is due to arrive this afternoon with two days' later mail.

### Rosamond at Irmgard Wharf.

The Rosamond was towed in to the Irmgard wharf early yesterday morning and began discharging her cargo of general merchandise immediately. The Rosamond brought five passengers. She left San Francisco on June 3rd, and made the run in twelve days, with a fair wind. Captain Fernald is in command in place of Captain Johnson.

### Albert Leaves Today.

The bark Albert is scheduled to sail this morning at eleven o'clock. She takes a cargo of sugar for San Francisco and will also carry six passengers. These are Mr. and Mrs. R. B. Rice, Mr. and Mrs. L. A. Stewart and Mr. and Mrs. H. Kohn.

## ISLAND BOATS HAVE A BIG DAY

Yesterday was an unusually busy day for the island steamers.

The steamer Walaleale arrived at 8:30 in the morning from Kauai ports. She reported the schooner Olga still at Makaweli discharging lumber. The schooner Kohala is through discharging at Elele, and the Flint is still there getting rid of her cargo.

The W. G. Hall which arrived from Lahaina and Hawaii ports reports heavy swells encountered at Lahaina. The Hall brought 5,000 bags of sugar. Purser Conkling reports also that smoke in vast columns rose out of the Volcanoo Kilauea last Saturday and Sunday.

There was a busy time at five o'clock on the water front. The Claudine left the Wilder wharf, and the Ke Au Hou and Mikahala left the Inter-Island wharf at about the same time, while the Iwalani departed from the lumber wharf at just that hour. The Claudine and Mikahala both carried large lists of passengers.

CHANGE OF WATER often brings on diarrhoea. For this reason many experienced travelers carry a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with them to be used in case of an emergency. This preparation has no equal as a cure for bowel complaints. It can not be obtained while on board the cars or steamship, and that is where it is most likely to be needed. Buy a bottle before leaving home. Benson, Smith & Co., Ltd., wholesale agents, sell it.

### NOTICE.

The undersigned beg to inform the Public that they have bought the general fruit business of Wo On Co., on King street, opposite Aala Warehouse, including stock of goods, business good will, lease of the building and furniture and fixtures.

The transaction is to be completed on June 20, 1903. Should there be claims of any nature whatsoever against said Wo On Co. they alone are to be responsible for them, and the same shall not concern the undersigned.
